

# BioStim

Easy to use pelvic floor rehabilitation appliance

## A PERSONALIZED DEVICE SUITABLE FOR EVERY NEED

The **Biostim** is an electrotherapy device that supports physiotherapists and midwives in perineal rehabilitation.

The computerized technology used for the Biostim device makes it very easy to use and easy to navigate through the menus. The programs, predefined in the device, allow most perineal rehabilitation treatments to be carried out, in the urogynecological and anorectal fields.

## THE BIOSTIM DEVICE IS RECOMMENDED FOR:

- Postpartum perineal rehabilitation
- Urinary / Fecal incontinence
- Prolapse
- Anorectal pathology
- Pain relief

## THE TECHNIQUES

- ANALGESIC  
Gate-control and endorphinic
- EXCITOMOTOR  
Neuromotor reprogramming, muscle reeducation and reinforcement
- BIOFEEDBACK  
EMG, pressure and relaxation

## THE ADVANTAGES OF THE BIOSTIM

- A modern and easy to use software which will allow you to be the most efficient with your patients
- Personalized animations
- Modifiable treatment protocols
- An evolutive database
- A preset power stage for all stimulation and biofeedback sessions
- A high-quality biofeedback responsiveness
- Automatic or manual calibration for biofeedback
- An active security with a link "appliance-patient" (emergency stop bulb)

The **Biostim** is available in 6 models according to your needs and techniques.
